

PLASTICS PACKAGING WASTE MANAGEMENT STAKEHOLDERS' CONCLAVE JULY 14, 2012 | CHENNAI

We have great pleasure in inviting you to the first ever " **PLASTICS PACKAGING –WASTE MANAGEMENT: STAKEHOLDERS' CONCLAVE** " which will be held in Hotel Radison , GST road, Chennai on July 14, 2012 .

The conclave is being jointly organized by **TAPMA** –The Tamilnadu Plastics Manufacturers' Association, with **CIPET** - Central Institute of Plastics Engineering & Technology, an autonomous Institution under the aegis of Government of India, **ICPE** –Indian Centre for Plastics in the Environment, **IPI** (Indian Plastics Institute) Chennai Chapter, **IPMMI** - Institute of Packaging Machinery Manufacturers' Association of India and **IFCA** – Indian Flexible Packaging and Folding Carton Manufacturers' Association.

TAPMA is committed to contribute on the plastics waste management and through this initiative we aim to set up a plant for handling plastics waste and converting them to lumber etc. The key objective is to set this up with the cooperation of all stakeholders – association, converters , large users of packaging materials , NGOs , **CIPET** and Tamilnadu Government.

This conclave will address eminent personalities and large companies with global involvement using a good quantity of packaging materials, NGOs and other stake holders to appreciate TAPMA's initiative and commit financial / infrastructural support for the project.

We are pleased to inform you that Ms. Jayanthi Natarajan , Hon'ble Minister of Environment & Forests, Government of India has consented to participate in the inaugural function and deliver key note address. This speaks of the importance of the event.

The conclave will be inaugurated by the Hon. Minister and Joint Secretary, Department of Chemicals & Petrochemicals will be the Guest of Honour.

As a large user of packaging materials and as a responsible association we need to demonstrate our commitment to a cleaner environment and the best and socially responsible way to demonstrate our commitment is an initiative to set up state of the art reprocessing plants to manufacture innovative products particularly from plastics and post consumer waste including packaging materials and disposable plastics packaging.

This conclave will examine all options of plastics waste management and embark on such activities to address this serious issue and also help the Government and Municipalities for better and easy Solid Waste Management.

We take this opportunity to invite you as a delegate to participate in the conclave and support our plastics waste management initiatives . We wish to add that the delegate participation in this conclave is only by invitation . Please find the tentative programme details overleaf.

We look forward to your confirmation at an early date

Thanking you and with warm regards

S.Ganesh
President
